Executive Seating

Gracing prestigious offices worldwide

This range brings together a harmonious collection of chairs, each a classic in its own right and instantly recognizable for its elegant lines, sculpted upholstery and supreme comfort.

Chairs from this range grace prestigious offices and boardrooms of distinguished executives worldwide.

Bentley

- Understated good looks make this chair the preferred choice for high-profile offices & boardrooms.
- Aluminium base super strong – built for a lifetime of use.
- Premium top grain black leather upholstery.
- Adjustable lumbar support is a thoughtful touch to ensure all day comfort.
- Ergonomic synchro mechanism moves the seat in harmony with the back recline – it's automatic comfort. Anti-whiplash protection eliminates surprises when adjusting the backrest.

BUILT TO LAST

“We are aware of the long-term effects of manufactured goods on the earth’s limited resources. Our material choices and production processes respect them,” says the Product Development Manager. “We are committed to this for the long haul. We build our products to last and back you up with service, parts and compatible upgrades - for as long as you care to use them!”

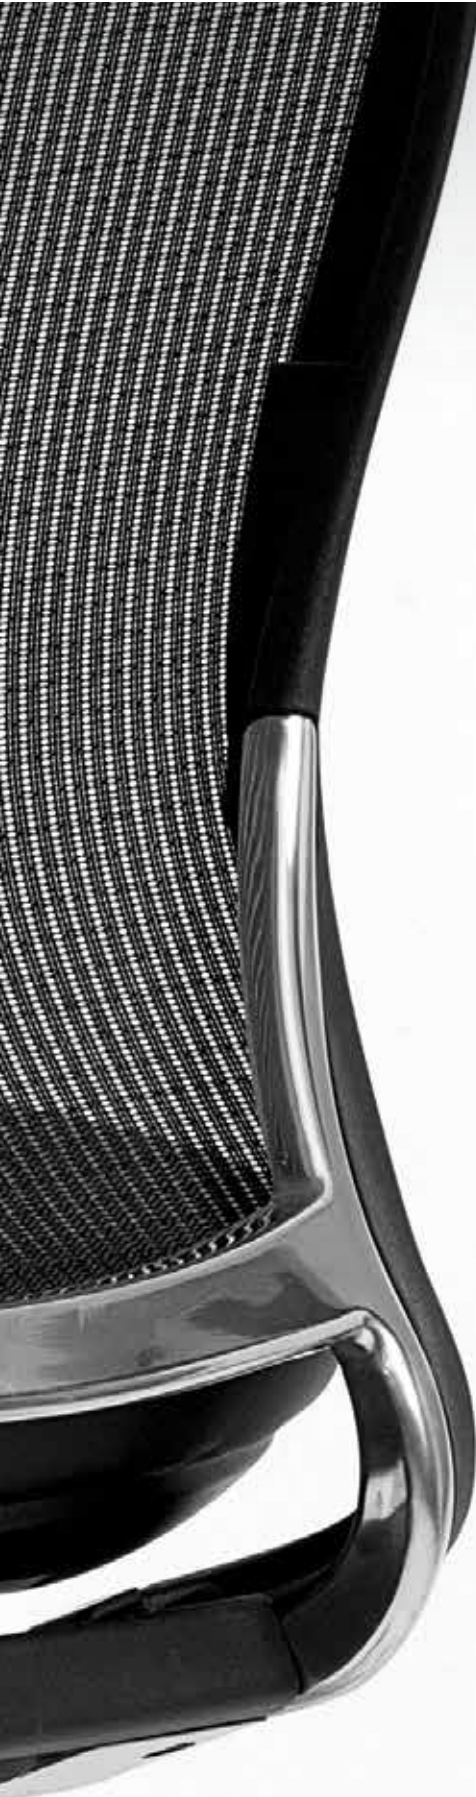

Our products are a great choice for businesses who want low-fuss, functional office environments. Products are designed around providing users with correct ergonomic features, while creating office spaces that are organized, efficient and aesthetically inspiring.

Our chairs have become progressively more ergonomically advanced, featuring even more anatomically contoured high-density seat cushions to provide proper distribution of seating pressure. Components and mechanisms are selected from a network of reputable manufacturers worldwide with the aim of total ergonomic control. This means users can set their chair to suit their physique – which results in more comfort for much longer.

Gas lifts have a major load bearing function, carrying the entire weight of you and your chair. These gas springs are guaranteed for life.

We have also developed height adjustable desking systems, mesh seating and expanded their own range of high-quality fabrics.

Mesh Seating

The ultimate seating experience

Millions of people spend the majority of their working life seated, so being comfortable is one of life's priorities. Mesh backrests allow greater air circulation than a traditional upholstered backrest and is most like human skin, which all combines to give the ultimate seating experience.

In addition, there is no reason why your chair should not be as architecturally appealing as your offices – exposed mesh is a statement in style.

Mesh Seating

High Level Style & Comfort for the Office or Boardroom

Arc

- Four step, synchronised tilting mechanism with weight specific tension control.

Task Seating

Nothing else comes close

This is serious comfort for serious sitters. Just like a vintner has a nose to distinguish a superior vintage, you'll feel the difference as soon as you sink into the comfort of any one of these remarkable chairs. These chairs are the fruit of years of experience and are all hand built here in New Zealand. In short, nothing else comes close.

Standard Features

- 2 or 3 lever ergonomic mechanism. That's more adjustment for more comfort. All levers are close to the seat and within easy reach.
- Premium quality gas springs. We guarantee them for life – nothing worse than soggy suspension!
- Moulded high-density seat cushion. You'll wonder how you did without it!
- Our reinforced nylon/fibreglass star bases are extra strong and tested to hold 1130kg.
- Knight Task Seating have large 60mm castors - making it easy to move.

PLATINUM SERIES

If you're looking for the best in ergonomic adjustment, the Platinum Task Range is for you! All chairs are built here in New Zealand and provide superior comfort through high density moulded foams and multi-lever mechanisms. Platinum chairs can be easily upgraded to include seatslides, lumbar support and adjustable arms. *Your body will thank you for it!*

GOLD SERIES

The Gold Task Range gives all day comfort at exceptional value. These popular models are ideal for a demanding office environment, providing full ergonomic adjustment, high density foams and fabric choice - all at a mid-market price point. Hand built in New Zealand, Gold chairs are backed with a 7 year guarantee. *Go for Gold!*

SILVER SERIES

The Silver Task Range gives you more for your money. 5 year guarantee and 6 hour comfort offer great value. These chairs are comfortable, hand built in New Zealand and simply speaking set the standard for economy seating. *Make your accountant smile!*

Plymouth

- A big chair for larger bodies.
- Heavy duty 3 lever ergonomic mechanism. That's more adjustment for more comfort. Levers are 3 aside and close to the seat - ergonomics should be easy.
- Premium quality gas springs. No sinking feeling – we guarantee them for life.
- Plush highback with specially molded high density foam for heavy duty comfort. You've only got one back and we help you to look after it!
- 98mm molded high-density seat cushion. Like we said, this is serious comfort!
- Our star base is extra large, strong and tested to hold 1130kg.
- Large 60mm castors. A big chair needs big wheels!

Luxe

Evo highback 3 lever with optional Luxe Seat, upholstered in Breathe Lime Green and features optional Alloy Base.

The challenge of providing a comfortable seat for the human body is that we come in so many different shapes and sizes. A chair that may be comfortable for one person can be inappropriate for others.

Knight Group, as always, is committed to offering the highest quality and most comfortable office furniture. And now, we are introducing a revolutionary seat.

more space, more support
comfort you can feel!

Luxe's **increased width and depth (515w x 490d mm)** brings a new dimension to Knight's task seating range.

Humans are individuals and each of us has a unique physique, with a larger seating area the Luxe Seat provides a chair for multiple users.

When you have the right seat it makes a difference to how great you feel at the end of each working day.

Luxe's **70mm high density structure** provides ultra comfort and support for those intense days in the office.

The Luxe molds to the shape of your body, creating a comfortable snug feeling, while still maintaining an ergonomic balance.

People who are more comfortable in their chair, are more likely to be able to sit and be productive for longer durations.

Luxe gives you **more space and more support to achieve your everyday tasks** to the best of your ability.

Don't let your worn-out seat cause you grief and discomfort any longer.

Upgrade your home or office chair now and experience the comfort and ergonomic refinement of the NEW Luxe Seat by Knight.

HAND BUILT IN NZ

Our Task chairs are not just another flavour of ready-to-assemble seats in a box, each chair is hand built to order. Designed by New Zealanders for New Zealand conditions:

- The directors personally participate in the design and development of each chair series.
- Components are selected from a network of reputable manufacturers worldwide.
- High density foam cushioning is developed and tested in New Zealand. It's high quality gives outstanding comfort ratings.

Conference Seating

Let the message be heard.

In an important meeting you want chairs to be so comfortable they go unnoticed. Knight's durable range of conference seating provides the perfect platform to keep large numbers of people in full attention.

All seating is stackable and fitted with easy-to-operate linking systems. Combine that with purpose built trolleys and you can transform any large room into a dynamic meeting space.

1 Is the chair for you, or someone else?

At this point take a look at the height/weight general build of the customer to assess whether you should be directing them to a medium or high backed chair.

TIP:

Check to see which chairs have Midback and Highback options.

2 What type of occupation are you in?

If the customer is in Senior Management perhaps they may be looking towards an Executive style chair rather than a task chair.

TIP:

Decide what seating range will best suit your customer and then find a chair with an appropriate Comfort Rating.

3 On average, how many hours per day would you spend at your desk?

This information will help you determine whether you should be pointing the customer towards ergonomic options only, or whether – if only used for short periods – they may be keen on seeing a mesh option or something with less functionality.

TIP:

Check the chair's Comfort Rating matches the hours your customer is seated.

PLATINUM						GOLD		SILVER

4 What are your main daily functions whilst sitting at your desk?

If your customer is a part-time accounts person spending up to 4 hours per day at their desk then a 2-lever chair would likely be sufficient. If however they are a Call Centre Operator or a Data Entry Operator for extended periods of 8 hours or more then a 3-lever would be a more suitable option given the higher level of adjustability.

TIP:
Check the Comfort Rating is suitable for your customer, and if the adjustment options are adequate to their core tasks.

5 Are there any areas where you currently experience pain or discomfort whilst seated at your desk that we need to take into consideration?

If the answer to this question is yes, then look at chairs with more supportive/structured lumbar support, or offer dial-up lumbar as an optional extra. If your customer has long legs you may wish to consider a seat slide, or for a larger framed individual without the long legs perhaps a large seat option.

TIP:
Check which upgrades are available for the chair.

6 Do you have a preference for added support in any particular area of the chair?

This question will assist you to point your customer in the direction of more supportive style chairs if required.

TIP:
Check which upgrades are available for the chair.

Ratings

AFRDI ICON
Chairs showing the AFRDI icon are certified in standard specification to AS/NZS 4438 Level 6 (Severe Commercial Use) and are classified for high use, high abuse applications in 24 hour environments. Select seating is available on request to meet AFRDI standards.

COMFORT ICON
How long will you spend in your chair? Look out for the Comfort icon; it will help you choose the chair best suited to your work.

FABRIC COLOUR CHOICE ICON
Be liberated! Make your workplace inviting and put the fun back into your job by choosing the fabric and style of your choice. Whether traditional or contemporary, casual or corporate it's entirely your choice!

GUARANTEE ICON
For your peace of mind, look out for our Guarantee icon. Knight Group guarantees you for up to 10 Years against faulty parts (excluding fabric) & workmanship based on a normal 40 hour week.

WEIGHT ICON
What sort of punishment will your chair need to take? New Zealand ranks 3rd in the world for heavy weights, so look out for our recommend user weight icon to help select the right chair for you!

HAND BUILT IN NEW ZEALAND
Knight Group supports the responsible stewardship of the earth, its inhabitants and its resources. For our full environmental statement and information on our Circle of Life program please refer to page 46.

Decorum Designs supplier of Knight brand chairs- New Zealand's most trusted and comprehensive office furniture brand. Better value. Proven quality. Quick ship.
